

Trusted Automation. Proven Results.

Testing Doesn't Have to Be Tedious. Let Us Help.

Health systems spend too much time manually testing EHR, third-party, and enterprise applications. It's costing a lot of employee hours and, in turn, adds to the already mounting levels of burnout.

18K to 22K Hours

\$1.2 to 2M

Spent annually on manual EHR, third-party, and enterprise application testing.

Say hello to

SureManage®

SureManage empowers health systems to transform and revolutionize their EHR and enterprise application testing processes. Reclaim thousands of hours annually, and easily foster operational excellence. It removes the hurdles health systems face in trying to implement automated testing while removing the manual testing burden and redundant tasks, resulting in lower costs and operational improvements while reducing errors and improving quality.

SureManage Benefits

24/7/365 Testing

Our technology doesn't eat, sleep, or get sick.

Unparalleled Accuracy

Automated testing ensures peak system performance.

80% Manual Hours Eliminated

15k to 26k hours saved annually with test automation.

Increase morale and realize a phenomenal positive ROI in year 1 with a 3-year return of up to 200% with our all-inclusive managed service solution.

FEATURES

SureWorks® LIBRARY

SureTest's extensive collection of automated test scripts *jumpstarts the speed of customized development* and provides end-to-end integrated and regression testing.

SurePersona® ENGINE

This powerful tool knows and emulates the exact functions each team member needs to employ for each use case and performs them with *astounding speed and precision* every time.

SureMethod® FRAMEWORK

This methodology is the bedrock for each test automation sequence we deploy. The framework is carefully developed by a team of seasoned healthcare domain specialists in all major EHRs and test automation engineering. This framework means you *realize continual testing, robust script maintenance, and real-time reporting.*

“It has been a pleasure working with SureTest. We were surprised and delighted with the speed to value and their ability to deploy automation in time for our Epic upgrade.”

- AVP, Information Systems for a large regional hospital

We Always Have Your Back.

With our managed service solution, you have a SureTest Test Automation Engineer that helps you stay several steps ahead, with:

- Continual testing
- Robust script maintenance
- Real-time reporting

“A complex, automated integrated script now takes 18 minutes or less per day to run, pausing overnight for system processing. It used to take 23 hours of labor across four days!”

- System Analyst, Novant Health

Learn how you can eliminate up to 80% of manual testing activities, win the war on talent, and take pressure off teams by reducing employee burnout.
