Staff Hates Testing

IT'S COSTING A FORTUNE AND NOT TESTING THOROUGHLY INTRODUCES RISK

18k-32k Hours

Health systems spend between 18-32 thousand hours on manually testing EHR, third-party, and enterprise applications annually

\$1.2M-\$2M

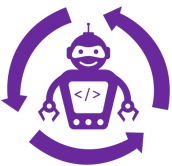

The cost of all those hours add up quickly - large health systems are spending approximately \$1.2M - \$2M annually on manual testing

Staffing Shortages & Employee Burnout are Occurring at Unprecedented Levels

NOBODY likes mundane manual testing -- health systems need test automation!

Studies show that being able to focus on strategic, impactful projects leads to higher staff morale and increased retention rates

Continuous Testing

Robots don't eat, sleep, or get sick
Continuously test your EHR 24/7/365

Unparalleled Accuracy

Even the most meticulous manual testing program can't compare to the accuracy of automated testing

Gain peace of mind knowing that your systems are in peak form at all times

SureTest's Test Automation Solution helps to solve these problems!

Scan the QR code to learn how you can eliminate 80%+ of manual testing activities, win the war on talent, take pressure off teams by reducing employee burnout

Increase morale and realize a **phenomenal positive ROI in YEAR 1** with a 5-year return of up to 300% with our all-inclusive managed service solution!

What Our Clients Are Saying

“Through our Epic Test Automation partnership with SureTest, Novant Health reduced the time needed to thoroughly test our EHR application upgrades and future rollouts while minimizing disruption of clinical staff.” - Ryan Neaves, VP of Care Applications, Novant Health

“A complex automated integrated script now takes 18 minutes or less per day to run, pausing overnight for system processing. It used to take 23 hours of labor across four days!” - System Analyst, Novant Health

“SureTest is our managed services provider who has successfully developed the automation of 318 workflows across our EHR and manages the maintenance of our customized script-library, saving us thousands of hours related to manual testing so the CHRISTUS team members can focus on our innovation efforts for more strategic initiatives.” - Stuart James, Vice President, Deputy CIO, CHRISTUS Health

Upcoming Case Study Quotes

“It has been a pleasure working with SureTest. We were surprised and delighted with the speed to value and their ability to deploy automation in time for our Epic upgrade.” - AVP, Information Systems

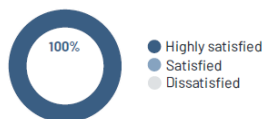

“With SureTest, we don’t have to touch those scripts and it is a huge timesaver for us. Once set up and vetted, we don’t have to do anything.” - System Analyst

“I’m so much more satisfied with my job overall now that I don’t have to do integrated testing every month.” - System Analyst
