

Break Free from the Staffing Status Quo

Ditch the middleman and take control of your contractor pipeline.

You've got the projects. You've got the roadmap. But between staffing delays, recycled resumes, and sky-high markups—you're stuck. Traditional staffing firms aren't built to support modern healthcare IT. They're built to keep you dependent.

Take Back Control

Revuud gives your team direct access to elite healthcare IT contractors—without the bloat, the delay, or the hidden fees. From EMR rollouts to RCM automation, we help hospitals move faster, spend smarter, and stay in control.

- EMR initiatives (Epic, Cerner, MEDITECH)
- Revenue cycle improvement and automation projects
- Data platform modernization and analytics rollouts
- Patient access and digital front door programs
- Health system M&A and IT integration efforts

All while eliminating hidden fees and delays.

What You Get When You Cut Out the Middleman

What You Get

Direct access to vetted HIT talent

AI-powered talent matching

Transparent rate negotiation

Real-time workforce tracking

Built-in onboarding workflows

Why It Matters

Speed up onboarding and reduce reliance on agencies

Fill critical roles faster without compromising quality

Gain control over budgets and margins

Improve visibility across departments and contractors

Ensure compliance with your internal policies and procedures

What Customers Are Saying

"Agencies want you to be dependent on them. Revuud makes my team self-sufficient."

- Tracia, Enterprise Apps Director

"With Revuud, we don't wait on someone else to find talent. We're in control."

- Angela, RCM Leader

"We were tired of overpaying for the same contractors we used last year."

- Marty, Reporting Manager

"Finally, a way to hire faster without risking compliance or quality."

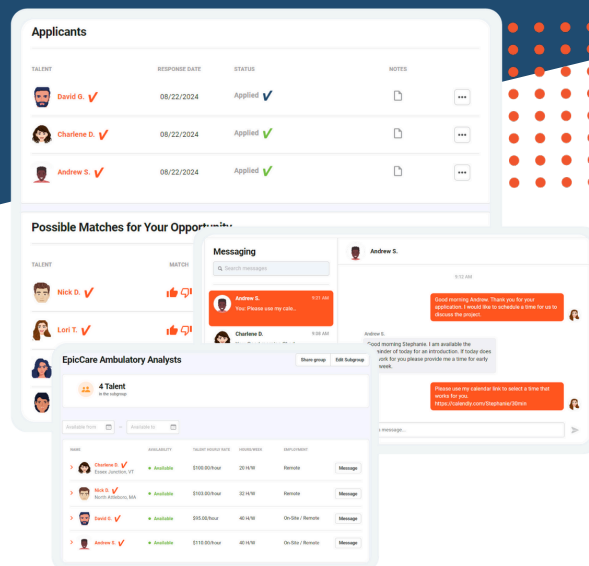

- Rachel, Senior Consultant

Real Numbers. Real Savings.

Revuud is helping healthcare systems across the country cut millions in unnecessary spend.

- One large health system saved nearly \$300K in just 6 months
- Another major healthcare organization is projected to save \$1M+ this year alone
- Multiple health systems report 7-figure annual savings

This isn't optimization. It's a complete reset of how hospitals engage healthcare IT talent.

Ready to Ditch the Old Model?

Health systems using Revuud are hiring faster, saving millions, and building their own talent ecosystems—while competitors are still waiting on agency emails.
